

Inflammatory Arthritis and the Primary Care Practitioner

PROGRAM OBJECTIVES

- ✚ Pertinent history and appropriate physical / laboratory / imaging exams to diagnose inflammatory arthritis more quickly and more accurately;
- ✚ Key components of the Canadian Rheumatology Association RA treatment algorithm;
- ✚ Describe the clinical evidence supporting treatment options for patients with SpA (particularly AS);
- ✚ Your role in the ongoing management of inflammatory arthritis patients;
- ✚ Case-based discussion on any rheumatology topic: please bring your case to discuss.
