

YOU ARE CORDIALLY INVITED!

Please join us for a discussion on **Non-Invasive Prenatal Testing (NIPT) and Panorama™** presented by **LifeLabs® Genetic Counsellor, Dawn Siciliano.**

**Thursday, May 26 at
6:30 PST (BC)**

Duration: 1 hour

Location: BigMarker Webinar

In this session we will:

1. Review the landscape of prenatal screening in British Columbia
2. Understand and differentiate current cell-free DNA/non-invasive prenatal screening technologies
3. Review case studies, their various results, and interpretations

Presenter:

Dawn Siciliano MSc, CCGC
LifeLabs® Genetic Counsellor

Dawn Siciliano is a Canadian Certified Genetic Counsellor who joined LifeLabs Genetics® in 2017. She completed her MSc. in Genetic Counselling at the University of British Columbia. Her career started in private industry working as a Clinical Genetics Specialist at Xenon Genetics. She then moved into clinical care at the Provincial Medical Genetics Program at BC Children's and Women's Hospital, where she provided genetic counselling in prenatal, pediatric, and adult genetics for 13 years. She further refined her counselling skills as a Clinical Counsellor at BC Women's Health Centre, where she counselled women on reproductive health issues. She is a Clinical Instructor at the University of British Columbia and regularly teaches and supervises medical students and genetic counselling students.

Food voucher of \$25 will be provided to those in attendance post event.
