SPEAKERS:

Dr. Brian Xin-Yong Wang MD CCFP

Graduated from Faculty of Medicine of McGill University in 1996; completed residency in Family Medicine at UBC with two and half years of extra training in OBGYN; is now practicing family medicine with focus on low risk obstetrics in Vancouver and in Richmond, with obstetrics privilege at BC Women's Hospital and at Richmond hospital; Past President of CCMS and PAR-BC.

Dawn Siciliano MSc, CCGC

LifeLabs Genetic Counsellor

Dawn Siciliano is a Canadian Certified Genetic Counsellor who joined LifeLabs Genetics in late August 2017. She completed an MSc in Genetic Counselling at the University of British Columbia. Her career started in private industry working as a Clinical Genetics Specialist at Xenon Genetics. She then moved into clinical care at the Provincial Medical Genetics Program at BC Children's and Women's Hospital, where she provided genetic counselling in prenatal, pediatric and adult genetics for 13 years. She continued on further refining her counselling skills as a Clinical Counsellor at BC Women's Health Centre, where she counselled women on reproductive health issues. She is a Clinical Instructor at the University of British Columbia and regularly teaches and supervises medical students and genetic counselling students.
