Remembering Dr. Francis Ho

I feel privileged to have known and worked with Dr. Francis Ho. He is a giant not only in our medical profession for being a dedicated family physician for over 50 years, but also in our communities and province of BC as a renowned civic leader.

His dedication in serving the Chinese and general public is in plain sight, as evidenced by his tireless leadership and contributions to support the fund raising for the Mount St. Joseph's Hospital, the Canadian Liver Foundation's BC Yukon Region. His skillful display of knowledge and his commitment of time and efforts to share medical knowledge in plain language in the public media is attested by his popularity as a public speaker and media commentator.

I have the honour to work with and see him in action up close in partnering on many events in the early years of the inter-Cultural Online health Network (iCON), a University of British Columbia Multicultural public educational initiative that has now in operation for over 11 years.

A wise medical practitioner, an altruistic humanitarian, and an artful communicator, Dr. Francis Ho has left an indelible and shining legacy for all of us to bear witness and follow.

Sincerely,

A handwritten signature in black ink, appearing to read 'KHo'.

Kendall Ho, MD FRCPC
Professor, UBC Department of Emergency Medicine
Lead, Digital Emergency Medicine Unit
Executive Director, inter-Cultural Online health Network (iCON)
