How to Manage COPD & ILD Patients in Today's Environment

LEARNING OBJECTIVES:

- Review current state of COPD patients and how we can optimize care now.
- Discuss local practices and available resources for COPD with a look at spirometry referral forms and what to do post spirometry.
- Review how ILD presents and when to refer these patients.
- Provide a framework for management of patients ILD.

SPEAKER:

Susan Kwan, MD
Respirologist

MODERATOR:

Brian Wang, MD

DATE:

Tuesday, April 26th, 2022
